MSFMP Lead Authors

The Draft MSFMP is the result of revisions to a preliminary draft which was released for public review in May 2002. It also went through an extensive peer review process. Based on these reviews, substantial improvements have been made to the 2003 MSFMP. The core staff of authors and editors committed to this document included:

Henry, Annette. Marine Biologist. CDFG. La Jolla, CA
Lazar, Katherine. Scientific Aid. CDFG. La Jolla, CA
Chan, Corey. Scientific Aid. CDFG. La Jolla, CA
McDaniel, Jenny. Scientific Aid. CDFG. La Jolla, CA
Fluharty, Marilyn. Environmental Scientist. CDFG. San Diego, CA
Rojek, Nora. Environmental Scientist. CDFG. Monterey, CA
Johnston, Deborah. Senior Environmental Scientist. CDFG. Monterey, CA
Hill, Kevin. Senior Marine Biologist. CDFG. La Jolla, CA
Yaremko, Marci. Marine Regulatory Unit Specialist. CDFG. Sacramento, CA
Kong, Corey. Marine Biologist. CDFG. Santa Barbara, CA
Taylor, Valerie. Marine Biologist. CDFG. Los Alamitos, CA
Tanaka, Travis. Marine Biologist. CDFG. Monterey, CA

The 2002 Restricted Access Policy Team

Restricted Access is the process of limiting the California commercial fishing fleet to a size that matches the size of the fishing resource. Input from the team helped to finalize the preferred alternative of the MSFMP. The Department would like to thank the following team members for their efforts. The team includes:

Barsky, Kristine. Senior Marine Biologist. CDFG. Santa Barbara, CA
Bishop, Traci. Associate Marine Biologist. CDFG. Santa Barbara, CA
Heneman, Burr. Director. California Ocean Policy Project. Bolinas, CA
Tillman, Terry. Senior Biologist Specialist. CDFG. Sacramento, CA
Weber, Michael. Marine Advisor. CA Fish & Game Commission. Redondo Beach, CA
Yaremko, Marci. Marine Regulatory Unit Specialist. CDFG. Sacramento, CA

The 2002 Environmental Document Legal Team

Certain state agencies, operating under their own regulatory programs, generate a plan or other environmental review document that serves as the functional equivalent of an Environmental Impact Report. The Environmental Document for the MSFMP required the focus of a California Environmental Quality Act analyst with support from the legal branch of CDFG. The Department would like to thank the following people for attention to the important analysis of impacts from the NFMP framework:

Fluharty, Marilyn. Staff Environmental Scientist. CDFG. San Diego, CA (lead)
Henry, Annette. Marine Biologist. CDFG. La Jolla, CA
Johnston, Deborah. Staff Senior Environmental Scientist. CDFG. Monterey, CA
Mattox, John. Staff Counsel. CDFG. Sacramento, CA
Milton, Joe. Staff Counsel. CDFG. Sacramento, CA
Rojek, Nora. Staff Environmental Scientist. CDFG. Monterey, CA

The Peer Review Panel – NFMP 2001--2002

Peer Review is the process of convening a panel of scientists to review any proposed Fishery Management Plan. The Peer Review Panel analyzes the strengths and weakness of the Plan and recommends strategies that will guide and secure a scientific basis for management. Under the guidance of Drs. William Leet and Christopher Dewees of the University of California, Davis, a Peer Review Panel of scientists was established. The Department would like to thank the contributions of the peer reviewers:

Hackett, Steven, Ph.D. School of Business Economics. Humboldt State University. Arcata, CA

Hatfield, Emma, Ph.D. Fisheries Research Services Marine Laboratory, Aberdeen, Scotland

Hochberg, F. G. "Eric", Ph.D. Department of Invertebrate Zoology, Santa Barbara Museum of Natural History. Santa Barbara, CA

Melvin, Ed, Ph.D. School of Fisheries Sciences. University of Washington. Seattle, WA

Pomeroy, Carolyn, Ph.D. Institute of Marine Sciences, University of California at Santa Cruz. Santa Cruz, CA
